NATANAEL RUDY HADINATA

Software & AI Engineer | Full Stack Developer | Data-Driven Builder

Malang, Indonesia • natanaelrudyhadinata@gmail.com • +62 812-2277-1840 • github.com/naelrudd • linkedin.com/in/natanaelrudy

PROFESSIONAL SUMMARY

Informatics Engineering undergraduate (expected graduation 2027) at Universitas Negeri Malang (GPA 3.90/4.00, BNSP-certified Associate Data Scientist) with hands-on experience shipping full-stack web products, gamified platforms, and AI/LLM-powered tools from idea to production. Comfortable across the stack — Next.js/React frontends, Convex/Node/Laravel/Flask backends, and applied machine learning. Experienced leading small teams, working directly with real users and UMKM partners, and iterating fast with pragmatic solutions. Seeking roles in AI Engineering, Full Stack, and Backend Development.

TECHNICAL SKILLS

Languages: Python, JavaScript/TypeScript, PHP, SQL, HTML/CSS, Bash

Frameworks: Next.js 15, React, Node.js, Laravel, Flask, Tailwind CSS

Backend / DB: Convex (real-time), MySQL, PostgreSQL, REST APIs, tRPC

AI / ML: LLM integration & prompt engineering, OpenRouter/OpenAI/Anthropic APIs, Scikit-learn, TF-IDF, Logistic Regression, RAG pipelines, AI coding agents (Claude Code, Kiro, OpenCode)

Testing: Jest, Vitest, Pytest | Auth & Payments: Clerk, Midtrans

Tools & Cloud: Git, GitHub, Docker, Linux, Vercel, Netlify, Postman, Railway

EXPERIENCE

Intern Coordinator — Innovation Directorate, Universitas Negeri Malang *May 2025 – Dec 2025*

- Lead the internship cohort at the Innovation Directorate, coordinating tasks across interns while managing the innovation catalog and digital platform.
- Collaborate with multidisciplinary teams on innovation and digitalization projects, overseeing web administration and documentation.

Founder & Lead Developer — MoveVerse — Personal / Competition Project *Jun 2026 – Present*

- Built a gamified physical-education platform for Indonesian elementary schools with role-based dashboards for students, teachers, and parents, using Next.js 15, Convex, Clerk, and Vercel. Deployed to production for national competition.
- Designed leveling, quest, and world-progression systems (themed worlds, AI assistant "Mova") to drive student engagement, plus a teacher-facing data-collection workflow.
- Owned production issues end-to-end — auth/middleware redirect loops, deployment configuration, and multi-team hosting/domain setup for a national competition (Rumahweb Large).

Coordinator — KKN PEELER-Q — Community Service, Jatimulyo, Malang *Jun 2026 – Aug 2026*

- Lead a student team co-developing a semi-mechanical quail-egg peeler with a local UMKM partner to reduce manual processing time and improve product consistency.
- Proposed and scoped supporting digital tools (production dashboard, Google My Business presence, order management) to extend the UMKM's operations beyond the core device.
- Drafted formal proposals and supervisor communications; coordinated milestones with the team and campus supervisor.

Project Leader — Industrial Internship — Badan Pusat Statistik (BPS) Kota Malang *Feb 2026 – May 2026*

- Coordinated a 4-member team delivering a data-processing automation project for BPS statistical reporting. Acted as primary stakeholder contact, managed task distribution, and kept delivery on schedule across the internship period.

IoT Training Speaker — WATS Program *2025*

- Delivered hands-on IoT training (ESP8266, sensors, fundamentals) to high school and vocational students.

Founder — Reloveresell — Personal Venture *2026 – Present*

- Run a preloved-clothing resale business end-to-end: sourcing, pricing, listing (Shopee, Instagram), customer communication, and inventory management — practical experience in small-scale GTM, ops, and digital marketplace dynamics.

SELECTED PROJECTS

AI Content Repurposer — Python, Flask, OpenRouter API, LLM

- Built a platform that transforms long-form content into platform-specific posts (LinkedIn, Instagram, Threads, Facebook, X) using multi-provider LLM integration and automated workflows.

KanvasHub (kanvashub.id) — Next.js 15, Convex, Midtrans — MVP Live

- E-commerce platform with real-time Convex backend, Midtrans payment gateway integration, and admin dashboard for product/order management.

Ngopikos (ngopikos.my.id) — Next.js, Convex — Live

- Boarding-house (kost) information platform for the Malang market, covering listings, search, and details for students and renters. Convex backend with real-time data sync.

Nael Mind — Next.js, Markdown, Graph View

- Personal knowledge-management web app with a file tree, Markdown editor, tagging, and graph view, also used as a persistent context layer for AI assistants.

Sentiment Analysis on Food Security Discourse — Python, Scikit-learn, TF-IDF

- Built a full sentiment-analysis pipeline (Logistic Regression + TF-IDF) on Indonesian Twitter/X data, including preprocessing, evaluation, and presentation.

ChatGPT Conversation Scraper — Flask

- Built a system to automatically organize, store, and retrieve AI conversation history, enabling persistent context management across sessions.

CERTIFICATIONS & ACHIEVEMENTS

Rumahweb National Competition Participant — MoveVerse (2026)
Coordinator, KKN PEELER-Q, UM BBM Mandiri (2026)

EDUCATION

B.S. Informatics Engineering (Teknik Informatika) — Universitas Negeri Malang 2023 – 2027 (Expected)

GPA: 3.90 / 4.00

Relevant coursework: Software Engineering, Data Structures & Algorithms, Database Systems, Computer Networks, Artificial Intelligence, Data Science, Gamification, Operating Systems

LEADERSHIP & ORGANIZATIONS

- Head of Music Division, NAFAS FT (2025–2026)
- Secretary, PSKM Perkantas — Christian student fellowship/missionary community (2023–Present)
- Coordinator, KKN PEELER-Q, UM BBM Mandiri (2026)
- Lead Guitarist, Lucien Sunmoon — original songs and live performances
- Member, Rabuni PMK (2023–2024)
